

1. Remove long dashes throughout
2. Swap order – Business Continuity & Loss Control on the left and Rapid Response on the right

The screenshot shows the DeleteRisk website's landing page. At the top, there is a navigation bar with links for Services, How We Work, Who We Serve, Team, Contact, and a prominent blue 'Get Started' button. Below the navigation is a section titled 'Two Sides of Complete Protection'. This section contains two main service descriptions:

- Rapid Response**: This service is represented by a lightning bolt icon. The description states: "When catastrophic events strike—fires, floods, equipment failures, environmental releases—we mobilize within hours to contain damage, coordinate specialized vendors, and restore operations. Our lean, vendor-driven model delivers instant mobilization capabilities." Below this is a bulleted list of services:
 - ✓ Instant mobilization for large-loss projects (\$1M+)
 - ✓ Specialized vendor coordination (electrical, refrigeration, environmental, demolition)
 - ✓ Complete insurance documentation and claims support
 - ✓ National coverage with proven execution across multiple markets simultaneously
 A link "Discuss Your Facility Needs →" is provided at the bottom.
- Business Continuity & Loss Command**: This service is represented by a shield icon. The description states: "Before disaster strikes, we build customized business continuity playbooks. During crisis, we provide independent loss command authority—controlling scope, managing contractors, and driving every stakeholder toward one goal: operational resumption. No financial incentive tied to restoration volume. Only results." Below this is a bulleted list of services:
 - ✓ Pre-loss continuity planning and facility vulnerability assessments
 - ✓ Crisis response command with vendor and insurance coordination
 - ✓ Scope control and cost protection (prevent contractor overscoping)
 - ✓ Timeline acceleration—every day saved retains customers and protects jobs
 A link "Learn About Advisory Services →" is provided at the bottom.

3. Remove \$25+ Project Delivery Range

This screenshot shows a dark blue callout box with the title "Track Record You Can Trust" at the top. Below the title are three bullet points, each enclosed in its own rounded rectangle:

- ✓ 15+ Years Managing Complex Manufacturing Losses
- ✓ \$25M+ Project Delivery Range
- ✓ Proven Track Record Across Multiple Industries
